**RE: Updating of Sandall Park Web Site**

Dear Chris,

On behalf of the Friends of Sandall Park can I say thankyou for helping us update the software on our website. Our website is our 'window to the world' and is so important to the way we, as a charity, do our business.

Don has informed me of the impressive timescale of your assistance and it is great to meet like minded people with a 'can do' attitude. We are also grateful for you completing this work free of charge, which we consider a charitable donation, as all the funds we raise are done so through the hard work of the volunteers.

We are particularly loyal to people and organisations that support us and as you know we have already included links on our website, an item on the website itself and an entry on our Facebook page about your help. Wherever possible we will promote the assistance you have given us.

Again, thankyou very much indeed.

Yours sincerely,

Sandra Crabtree  
Chairman Friends of Sandall Park
